Of the fleet the charge d'affaires expressed the opinion that it is lying in the menth of the Eibe, secure from attack by the British, and ready to dart into the North Sea to strike a blow when opportunity offered, or drop back into the Baltic through the Kiel Canal. Thus the British fleet is being held bipless, required to watch for the eGerman fleet, which is refraining from exposing itself to attack from a vastly superior force. He also pointed out that the British fleet is obliged to stand guard at sea, where the vessels can hardy even coal, while the German fleet is resting comfortably in its protected places.

U. ABOVE ALL BE SATISFIED

Our success is measured by the extent that we succeed in pleasing our customers, be-

cause a satisfied customer becomes a loyal friend, and friends constitute the backbone of any business.

We have no hesitancy in saying that this business was started for the purpose of making money, nor have we any hesitancy in saying that it is successful. But it is successful only because we have made stanch friends of our customers by selling them nothing but reliable materials; by asking fair and just profits, and by treating them courteously atimes.

We carry a complete line of paints, oils, varnishes, brushes, glass, etc. Come in today and get acquainted with us-we will make it mutually profitable.
